Tongzhou Wang

EDUCATION_

Massachusetts Institute of Technology

Ph.D. in Computer Science 2019 - 2024 (expected)

· Advisors: Antonio Torralba, Phillip Isola

University of California, Berkeley

B.A. in Computer Science and Statistics

Advisors: Stuart J. Russell, Ren Ng, Alexei A. Efros

2013 - 2017

EMPLOYMENTS_

Facebook AI Research (FAIR)

Research Intern 2021

• Mentor: Yuandong Tian. Minimal representation for reinforcement learning. Paper appeared in ICML 2022.

Facebook AI Research (FAIR)

Full-time Engineer on Machine Learning Framework

2017 - 2019

• Built data loading pipelines and machine learning operators for PyTorch, a now leading framework for deep learning.

Research Interests

Machine Learning, Artificial Intelligence, Perception, Decision-Making.

I study machine learning problems and algorithms via **structures** they exhibit and require. My research focuses on perception and decision-making in artificial intelligence, and aims to ((a) learn fundamental structures for better AI systems and ((a) discover and analyze useful structures.

FEATURED PUBLICATIONS

_(* indicates equal contribution)

Understanding Contrastive Representation Learning through Alignment and Uniformity on the Hypersphere (a)

Tongzhou Wang, Phillip Isola

2020

International Conference on Machine Learning 2020 [ICML 2020].

Denoised MDPs: Learning World Models Better Than the World Itself (in)

<u>Tongzhou Wang</u>, Simon S. Du, Antonio Torralba, Phillip Isola, Amy Zhang, Yuandong Tian

2022

International Conference on Machine Learning 2022 [ICML 2022]

Optimal Goal-Reaching Reinforcement Learning via Quasimetric Learning (a)

<u>Tongzhou Wang</u>, Antonio Torralba, Phillip Isola, Amy Zhang International Conference on Machine Learning 2023 [ICML 2023] 2023

Dataset Distillation (

)

Tongzhou Wang, Jun-Yan Zhu, Antonio Torralba, Alexei A. Efros

2018

Learning to See by Looking at Noise ()

Manel Baradad*, Jonas Wulff*, Tongzhou Wang, Phillip Isola, Antonio Torralba

2021

Advances in Neural Information Processing Systems 2021 [NeurIPS 2021]

INVITED TALKS_

Structured Representations for Active Agents

Stanford Vision and Learning Lab, Stanford University

November 2023

Guest Lecture, University of Sounthern California

November 2023

Quasimetric Reinforcement Learning

Brown University
AI Seminar, Carnegie Mellon University
Vector Institute for Artificial Intelligence

November 2023 October 2023

Deep Learning: Classics and Trends (DLCT)

Machine Learning Advances Symposium Macsachusetts Institute of Technology

September 2023 June 2023

Machine Learning Advances Symposium, Massachusetts Institute of Technology University of Texas, Austin

May 2023 April 2023

Northeastern University

April 2023

Technical Talks on PyTorchPyTorch Developer Conference, San Francisco, CA, USA

October 2019

Global Mobile Internet Conference, Beijing, China

April 2018
